**Issue 16**

<b>STRATEGY</b>	<b>R&amp;D</b>	<b>MANUFACTURING</b>	<b>CLINICAL TRIALS</b>	<b>IT</b>	<b>EXPERT TALK</b>
Indian solutions for the global pharma market	Biomarkers In Developing Anticancer Drugs	Future of Indian Pharma Manufacturing	Changes within clinical trials in Asia and Eastern Europe.	Tapping India's talent pool	The Growing Importance of the Biopharma CFO
Partners in CRAMs: strategies for developing the partnership model.	Commercializing research discoveries	Opportunities and challenges in the rapidly evolving biomanufacturing industry in Asia	Transforming while Performing – A Clinical Perspective	Digital Pharma: what is next?	Future of Pharmaceutical Marketing in Asian Markets
Business ventures – In Asia and around the World	Application Proteomics technologies to identify novel disease targets	Innovating Packaging techniques for drug safety	Innovative financing for development of vaccines in developing nations		
Adapting Change For A Brighter Future					

\*Note: This editorial calendar is subject to change without notice.

**Issue 17**

<b>STRATEGY</b>	<b>R&amp;D</b>	<b>MANUFACTURING</b>	<b>CLINICAL TRIALS</b>	<b>IT</b>	<b>EXPERT TALK</b>
Moving towards "Mission Pharma 2020"	Super-sizing Pharma: A Compelling Strategic Advantage in R&D	Leveraging on Asia's capabilities for global drug development	Asia's growing viability for preclinical and clinical development	Can Biotechs Successfully Run as Standalones within Pharma?	Big Pharma Mergers: Why? And What Will They Mean to You?
Asia's biomedical industry business	Role of Discovery in New Pharma Structures	Device and Drug Delivery: The Integration and Selection Process	Clinical Trial funding over the coming decade	Growing Pharma outsourcing	Global Pharma Industry - Opportunities
Pharma Mergers-factors that challenge success.	Pharming Innovations	Applying operation excellence to biopharmaceutical manufacturing	Growth in Clinical Trial Markets		
Risks and returns of investing in vaccine business		Automated control of processes
